## Emergency Planning for Your Pet

### Are You Prepared?

We live in an area that is prone to certain natural disasters, such as earthquakes, tsunamis, wildfire, and floods. Emergencies come in many forms, and they may require anything from a brief absence from your home to permanent evacuation. Each type of disaster requires different measures to keep your pets safe. **The best thing you can do for yourself and your pets is to be prepared.** Leaving pets out of evacuation plans can put pets, pet owners, and first responders in danger.

When recommendations for evacuation have been announced by your local emergency management office, follow the instructions of local and state officials. For more information go to: **[www.preparedelnorte.com](http://www.preparedelnorte.com)**

## If you have to Evacuate:

- ❗ **DO NOT LEAVE YOUR PETS BEHIND.** Pets are unlikely to survive on their own.
- ❗ Store emergency kits (for both you and your pets) and leashes close to an exit.
- ❗ Make sure all pets wear collars and tags with up-to-date identification.
- ❗ Always bring pets indoors at the first sign or warning of a storm or disaster. Pets can become disoriented and wander away from home during a crisis.
- ❗ Consider your evacuation route and call ahead to make arrangements for boarding your pet outside of the danger zone at the first sign of disaster.
- ❗ Use a rescue sticker alert to let rescuer know that pets are inside your home. Includes the types and number of pets in your household. If you have evacuated with your pets (and if time allows) write "EVACUATED" across the stickers so rescue workers don't waste time looking for them.
- ❗ Take photos of you with your pet(s) in case you are separated. Keep copies in your wallet, phone, disaster kit, and give copies to friends who lives outside of your area.

## Arrange a Safe Haven for your pets in the event of evacuation:

If you evacuate, take your pet. Remember, if it isn't safe for you, it isn't safe for your pets. Even if you try to create a safe place for them, pets left behind during a disaster are likely to be injured, lost, or worse.

- ❗ Ask friends and relatives outside your immediate area if they would be willing to take in your pet. Exchange keys with someone who can evacuate your

animals if you are not home when disaster strikes. Make sure they know where the pets emergency supplies are located.

- ❖ Listen to the radio for information concerning local emergency shelter or foster care for pets. Del Norte County emergency services info provided below.
- ❖ If you are unable to return to your home right away, you may need to board your pet. A list of boarding kennels and facilities is provided in below. Keep a copy of the locations with your pets emergency supplies.
- ❖ Consider staying at hotels or motels outside of your immediate area that accept pets (a list is provided below). Keep a copy of the locations with your pets emergency supplies

## "GO-BAGS"

Keep a **PET PREPAREDNESS KIT (Go-Bag)** handy for your pets. Make sure that everyone in the family knows where it is. Keep your pet's essential supplies in a sturdy Go-Bag or container that is clearly labeled, readily accessible, and easy to carry. Documents, medications, and food should be stored in waterproof containers. Assemble a kit or include supplies for each animal in your household.

Items to consider keeping in or near your **Go-Bag** include:

\_\_\_ Food (your pet's regular food) for at least 1 week for each pet; rotate food every two months to avoid spoilage

\_\_\_ Water, rotate supply every two months

\_\_\_ Food and water bowls and a manual can opener

\_\_\_ Leash or harness, collar with identification tags; Temporary "write-on" identification tag

\_\_\_ A handout containing identification pet information for boarding or shelter info (example below)

\_\_Photo of your pet/ID and a photo of you with your pet in case they get lost.

\_\_A "lost animal" flyer in the event you get separated from your pet with the following information (example below)

- 🐾 Pet's descriptive features (age, breed, color, and weight)
- 🐾 Microchip number
- 🐾 Your contact information (cell phone, work phone, home phone)
- 🐾 Contact information of a friend

\_\_Medications for at least 2 weeks, along with any treats used to give the medications and pharmacy contact for refills

\_\_Immunization/vet records (keep both updated)

\_\_A handout with pet care instructions, such as feeding schedule, medical conditions and medications, the name and number of your veterinarian, and any known allergies and behavior problems

\_\_Pet carrier for each pet that is large enough for your pet to stand comfortably and turn around; (write your pet's name, your name and contact information on each carrier).

\_\_Pet first-aid kit and instruction book

\_\_For cats: litter and disposable litter trays (aluminum roasting pans are perfect)

\_\_For dogs: plastic bags for poop pick-up

\_\_Pet bed or toys if easily transportable (familiar items to help the pet feel more comfortable).

\_\_Clean-up items for bathroom accidents (paper towels, plastic trash bags, cleanser)

\_\_Contact list for pet-friendly hotels, veterinarians, boarding facilities, and emergency services.

## **Diseases Transmission During a Natural Disaster**

Exposure to inclement weather conditions, stagnant water, wildlife or unfamiliar animals, and overcrowding can put your pet at risk for getting sick. Some of these illnesses can be transmitted to people.

- ✿ Keep your pet up-to-date on vaccines
- ✿ Report any bite wounds to medical personnel immediately
- ✿ Keep your pet in a carrier or on a leash
- ✿ Do not allow your pet to interact with other animals
- ✿ Wash your hands after touching any animal
- ✿ Use disinfectant to clean the cage and litter box
- ✿ Don't allow pets to play in or drink stagnant or contaminated water
- ✿ Keep your pet up-to-date on heartworm and flea and tick preventive treatments

## **Caring for your pet after a disaster**

- ✿ If after a disaster you have to leave town, take your pets with you. In the first few days after the disaster, leash your pets when they go outside. Always maintain close contact. Familiar scents and landmarks may be altered and your pet may become confused and lost. Also, snakes and other dangerous animals may be brought into the area with flood areas. Downed power lines are a hazard.
- ✿ The behavior of your pets may change after an emergency. Normally quiet and friendly pets may become aggressive or defensive. Watch animals closely. Leash dogs and place them in a fenced yard with access to shelter and water.
